Education

Vellore Institute of Technology

Bachelor of Technology in Computer Science and Engineering, CGPA: 9.22/10

Sept. 2023 – May 2027

Vellore, India

Experience

MeetMux by Altrodav Technologies Pvt. Ltd.

May 2026 – Jun 2026

DevOps and Cloud Engineering Intern

Bangalore, India

- Architected and managed the complete DevOps lifecycle for a cloud-native microservices platform on AWS, from infrastructure provisioning to CI/CD automation and production deployments.
- Designed deployment architecture across Development and Production environments, automating release workflows for 10+ microservices using GitHub Actions, Docker, and AWS services.
- Collaborated with engineering teams to deliver production-ready infrastructure within a 1-month internship, enabling reliable deployments for live applications with minimal manual intervention.

Orange People

May 2025 – Jul 2025

Technical Intern

Remote

- Developed and deployed 5+ enterprise applications using Zoho Creator and Microsoft Power Apps, automating business workflows for 200+ employees.
- Collaborated with business stakeholders to analyze operational challenges and translate requirements into scalable workflow automation, reducing approval turnaround time by 75%.
- Designed and implemented workflow automation, custom scripting, role-based access control, and reporting solutions supporting enterprise operations valued at over \$5M annually.

Research and Publications

RadiFuse-Net: Explainable Hybrid Radiomics Deep Learning Framework

IEEE Conference Paper — Presented at ICoICI 2026

- Engineered an explainable MRI analysis framework for automated brain tumor segmentation and risk stratification, achieving 0.97 Dice score and 99.40% classification accuracy.

Federated Learning for Privacy-Preserving Breast Cancer Detection

Patent Application Published – Application No. 202641027759

- Engineered a privacy-preserving distributed AI system using Federated Learning and ResNet-50 for secure breast cancer detection without centralized data sharing.

Projects

Nexora – AI-Powered Collaborative Engineering Workspace | *Spring Boot, React.js, PostgreSQL, RAG* [GitHub](#)

- Built a full-stack engineering workspace enabling teams to manage projects, tasks, technical knowledge, and collaboration through REST APIs with role-based access control across personal and organization workspaces.
- Engineered organization-based collaboration with workspace onboarding, project membership, task management, and AI-powered RAG for context-aware project knowledge retrieval.

RoomSync – Hostel Roommate Finder | *React.js, Node.js, MySQL, AWS*

[GitHub](#)

- Built a full-stack platform enabling students to discover compatible roommates through lifestyle preferences, interests and personalized matching.
- Developed profile management, room discovery, and preference-based matching workflows with REST APIs and a responsive React.js interface, deployed on AWS.

Technical Skills

Languages: Java, JavaScript, Python, SQL

Cloud & DevOps: AWS Services, Docker, GitHub Actions, Jenkins, CI/CD, Microservices

Software Development: React.js, Spring Boot, REST APIs, MySQL, Postman, Git, GitHub

AI/ML: NLP, LLMs, PyTorch, Hugging Face, Prompt Engineering

Platforms: Notion, Zoho Creator, Microsoft Power Apps

Certifications & Leadership

- Secretary, Solar Energy Society of India (SESI), VIT (2026–2027)
- Cultural Manager, Riviera'26, VIT
- **Oracle Certified Foundations Associate – Agentic AI** [\[View\]](#) | **AWS Training – Cloud Architecting** [\[View\]](#) | **DevOps Fundamentals** [\[View\]](#) | **Agile & Design Thinking** [\[View\]](#)
